

Ordering Already-Designed Fabric for the *Magical Toys* 3-N-1 Quilt

Fabric for this “magical” quilt can easily be ordered and stitched because it has already been designed for your immediate use. Below are two quilts that have BOTH been prepared from the same fabric—the top has added borders and embellishments from my stash, and the second was made with JUST the Spoonflower fabric.

To order the already-prepared FABRIC for the *Magical Toys* quilt:

1. The quickest way to locate this fabric is to click on the link: https://www.spoonflower.com/profiles/flora_joy and then click on the fabric with the title “3-N-1 Magical Toys.” (See the image on the next page to make sure you’re getting the correct one.) Now Sign in and go to STEP 2 below.

Note: If this is your first purchase with Spoonflower, you’ll need to provide a few details. BUT, this is a very SAFE company, and this needs to be done only for your first visit.

Note: An alternative (and more complex) method to the above is to go directly to www.spoonflower.com, SIGN IN, click on SHOP, then on FABRIC. The NAME of this design is “3-N-1 Magical Toys.” To find THIS fabric, look for a SEARCH window (on the left), type in “3-N-1 Magical Toys,” then click GO. (Sometimes you will need to scroll waaaaay down to find it, but be persistent.) AFTER you locate this specific fabric, CLICK ON THE DESIGN.

2. After this fabric appears inside the purchase window, you will want to make some selections:

A. Choose your **TYPE OF FABRIC**: The “Basic Combed Cotton” works nicely. *You may REQUEST the “Basic Cotton Ultra” if you are a Spoonflower member. This makes the colors a little brighter.*

B. **AMOUNT OF FABRIC TO ORDER**: It will take **ONE YARD** for this quilt. To make sure you are ordering ONE YARD, **FIRST** click on the down arrow (to the right of the words “Fat Quarter”) and then click on the word **YARDS**. Now click on the QUANTITY of **ONE** (in the “QTY” box to the LEFT of YARDS, to indicate that you want ONE YARD—enough to make this full quilt with some borders).

C. Now click on **ADD TO CART**. (This icon appears in the gold rectangle below the price).

D. You can finish with your shipping address, etc. If you have any questions, the Spoonflower “Chat” is typically online during normal working hours. Otherwise, under CONNECT or HELP, you can email an agent at Spoonflower. I will be happy to answer any questions for which I might have an answer, but for ORDERING, you might need to contact Spoonflower.

E. The printing and shipping time will likely be approximately a week to ten days.

Note that the image you will see in Spoonflower’s ORDERING WINDOW will resemble the following:

(You can click on “ZOOM” below the image in order to see ALL of it.) Fear not, because that is how it SHOULD look. The TOP of this design is the FULL panel needed for the pleated insert. Below that on the right is the FRAME to fit around the stitched insert. The remaining two sections provide PRACTICE, Practice, practice..... Rather than ruin your FULL panel (or frame) with your first “experiments,” trim away these two practice rectangles and get used to stitching on them. THEN, when you feel ready, segue into the final one.

For anyone wanting to experiment with creating this file in your own computer, go back to the web page and download all three of these complimentary images into your own computer, and use them to your heart’s content!

Refer to the book **TRISPECTIVE, 3-N-1 Quilts**, by Flora Joy, published by the American Quilter’s Society, www.americanquilter.com for complete instructions regarding how to finish this quilt. Copies may also be available at your local quilt shop.

Have FUN!!!
